

## ANNUAL MEETING OF PRESBYTERIAN CHURCH IS HELD

Salary of the Pastor Increased the Sum of \$300 Per Year

### OFFICERS ELECTED AND REPORTS GIVEN

### Announcement Made That \$11,000 Is Paid Off on Church Debt

The annual meeting of the First Presbyterian church occurred Thursday evening at the church, North Gay street.

A picnic supper was enjoyed by the members at 6:30 o'clock, and following this the business session was held.

George S. Harter was elected chairman of the meeting and interesting reports of the year's work were given. One of the reports showed that the church has a total membership of 395, and that 15 new members were received during the year. It was also reported that several new members will be received into the church on Easter Sunday.

The New Era Movement has been provided for, it was reported.

An interesting report was read, giving the information that \$11,000 had been paid off on the church debt and that the balance of the debt had been provided for. During the year the church raised \$17,300, which was considered exceptionally good.

Upon motion, the salary of the pastor, Rev. W. H. Shields, was increased \$300 per year. The increase in salary came as a complete surprise to Mr. Shields.

The following officers were elected for the ensuing year:

Elders—Wilmot Sperry, Dr. R. W. Colville, Prof. P. C. Zemer and William A. Ackerman.

Deacons—Trustees—H. W. Bowden, Thomas Bogardus, Fred Pharis and Clois Crumley.

## ADVANCE AGENT OF PITTSBURGH BOOSTERS HERE

Arrangements Made for Visit Of Pittsburgh Men Here May 20

### WILL ARRIVE IN A SPECIAL TRAIN

### Members of Local Chamber of Commerce To Receive Guests

Anxious to set the wheels of progress in motion, Edward C. Sykes, the advance guard of the trade extension committee of the Chamber of Commerce of Pittsburgh, arrived here today to consult with Leroy G. Mayer of the Chamber of Commerce concerning the visit of the boosters here on May 22. Persons intending to make improvements, the Pittsburghers will urge, should begin them now, in order to start prosperity humming.

The 125 bankers, manufacturers, wholesalers and jobbers who will comprise the party will travel by special Pullman train scheduled to arrive here at 11 a. m. and remain until noon.

It is believed by Steel City men that prices of all kinds of materials are as low now as they will be; that the way to start progress is to do the things that are needed.

Present plans of the Pittsburghers call for a stop of one hour here, since the time of the participants is limited, owing to the 550 miles of territory that is being covered on this trip. The Pittsburghers desire to meet the bankers, manufacturers and business men in their own places of business for a friendly call. The trip is not a sample case expedition but is taken for the purpose of boosting business and also enlisting interest in the non-resident membership of the Pittsburgh body which now has 5,600 members, making the largest commercial organization in the United States.

Membership would entitle business men here to all the rights and privileges of the Pittsburgh organization, such as the use of the Chamber quarters, including the dining rooms, club rooms, meeting rooms, making an excellent place to meet friends or rest while in Pittsburgh.

## PET STOCK MEN WILL HOLD MEETING

### Rabbit Judge Has Been Obtained To Give A Lecture

Preparations are being made by the Knox County Pet Stock and Poultry association to hold another meeting a few days after Easter. Everyone interested in rabbits or poultry is invited to attend the meeting.

While it has not been definitely arranged, plans are being made to have one of the best rabbit judges in the country attend the meeting and give a lecture on rabbits.

Plans for the coming poultry show, which will be held in the auditorium of the city hall, will also be talked over.

### MUSTERED OUT

Mr. Jessie Larimore, who returned from overseas with the 87th Division, was mustered out of service Wednesday at Camp Custer, Mich., and returned to his home in Lock today.

### Pearl Fisheries.

It is definitely known that the Ceylon pearl fisheries have been in existence 300 B. C., and tradition says they existed before that time.

### How Chinaman Drinks Tea.

The Chinaman in preparing tea places a pinch of leaves in a Chinese teacup, which is without a handle, pours boiling water over them and places the cover on the cup. In a few seconds the tea is ready for drinking; the covered cup is raised to the mouth, and, with the fingers of the hand holding the cup, the lid is moved just sufficiently to permit the liquid to flow into the mouth as the cup is tilted.

### Unpopular Job.

Few persons were desirous of qualifying for the task of destroying 24,000 pounds of dynamite and other high explosives, stored until recently in an abandoned magazine. The unpopularity of the job was increased by the fact that a previous attempt to burn the explosives had resulted in detonations so violent that the experimenters fled. Finally an expert was employed who carefully opened each box with a wooden wedge and mallet and examined the contents. In most cases he found that the material could be destroyed by dumping it on the ground, saturating it with oil, and then lighting it with a fuse that permitted withdrawal before explosions took place.

### Had Imitation Submarine Target.

The skill with which the American gunners frustrated the attacks of U-boats was due, in a large measure, to the use of an ingenious target for gun practice during the voyage, asserts a writer in Popular Mechanics Magazine. The device consisted of a framework, about 30 feet long and five feet wide, built to be drawn through the water, with an imitation conning tower and periscope mounted on the upper side. It was drawn behind the ship by means of two cables attached one above the other. By pulling on the upper one, the upper side of the frame was made to project forward, causing the target to rise to the surface, while, by pulling on the lower cable the device would quickly submerge. Officers out of sight of the gunners manipulated the apparatus, frequently changing the range by paying out or taking in the cables.

### Facial Expression.

The frequent repetition of any facial expression causes permanent alterations in the expression, and these correspond with, and suggest to the beholder, the emotional state that has predominated; so that the man who is always laughing comes to look "a jolly man," the thinker a thoughtful man, and the woman who worries begins to wear a worried look that persists.

### Rum Mart in Philadelphia.

Rum distilled from molasses was among Philadelphia's principal manufactures before the revolution. Dr. Benjamin Rush wrote to "Mad Anthony" Wayne after the capture of Stony Point: "Our street rang with nothing but your name. You are remembered constantly next to our good and great Washington, over our claret and madeira." Both were much in demand at the city's typical entertainments of the stranger.

### Peculiar Bush Beans.

Careful tests have shown that certain kinds of bush beans which as a rule bear one good crop of early beans and then cease to produce, will, when started in flowpots under glass, produce a fine crop much earlier than those planted in the open soil, and continue to produce beans all through the summer up until the vines are cut by frost in autumn. It is supposed the age of the plant makes the difference, as the one started under glass is older before it bears any beans at all.

## When Was Your Battery Tested?

How long has it been since you had a line on the inside condition of your battery?

A month? Six weeks?

If it's any more, you're taking chances.

Don't you want to know it if you're starving your battery—or mistreating it?

There's only one way to tell—by test. You can make it yourself or we'll do it free.

We'll be glad to show you the "How" of this sample test, and to tell you about Threaded Rubber Insulation—the most important battery improvement in years.
